

**Ana Claudia Nabarro**

**Affiliation: ICMC-USP-São Carlos, SP, Brazil**

### Publication List

Izumiya, S.; Nabarro, A. C.; de Jesus Sacramento, A., Horospherical and hyperbolic dual surfaces of spacelike curves in De Sitter space, *Journal of Singularities*, 2017.

Nabarro, A.C.; de Jesus Sacramento, A.. Focal set of curves in the Minkowski space near lightlike points, *Publ. Math. Debrecen* 88/3-4 (2016), 487–510

Nabarro, A.C.; Saloom, A., “On the singularities of families of curve congruences on Lorentzian surfaces”, *J Dyn Control Syst* 22 (2016), no. 3, 507–530.

#### Real and Complex Singularities

Edited by A. C.Nabarro, J. J. Nuño-Ballesteros, R. Oset Sinha and M. A. S. Ruas  
Contemporary Mathematics AMS-RSME, 2016.

Izumiya, S.; Nabarro, A. C.; de Jesus Sacramento, A., Pseudo-spherical normal Darboux images of curves on a timelike surface in three dimensional Lorentz-Minkowski space. *J. Geom. Phys.* 97 (2015), 105–118.

Kasedou, M.; Nabarro, A. C.; Ruas, M. A. S., “Second order geometry of spacelike surfaces in de Sitter 5-space” *Publ. Mat.* 59 (2015), no. 2, 449–477.

Martins, L. F. e Nabarro, A. C., “Projections of hypersurfaces with boundary in  $\mathbb{R}^4$  to plane”. *Glasg. Math. J.* 56 (2014), no. 1, 149–167

NABARRO, A. C. ; TARI, F. . Families of curve congruences on Lorentzian surfaces and pencils of quadratic forms. *Proceedings. Section A. Mathematics*, v. 141, p. 655-672, 2011.

NABARRO, A. C. ; TARI, F. . Families of surfaces and conjugate curve congruences. *Advances in Geometry (Print)*, v. 9, p. 279-309, 2009.

NABARRO, A. C. ; ROMERO-FUSTER, M. C. . Extrinsic Geometry of 3-manifolds in Euclidean space from a contact viewpoint. *Communications in Analysis and Geometry*, v. 17, p. 775-776, 2009.

NABARRO, A. C. ; RUAS, Maria Aparecida Soares . Vector Fields in  $\mathbb{R}^2$  with Maximal Index. *Quarterly journal of mathematics (Online)*, doi: 10.1093/qmath/hal017, v. 58, p. 81-90, 2007.

NABARRO, A. C. . Projections of hypersurfaces in  $\mathbb{R}^4$  to planes. *Lecture Notes In Pure And Applied Maths*, Marcel Dekker - New York, v. 232, p. 283-300, 2003.

Nabarro, A. C. Duality and contact of hypersurfaces in  $\mathbb{R}^4$  with hyperplanes and lines. *Proc.Edinb. Math. Soc.* (2) 46 (2003), 3, 637 – 648.

Submitted paper: Izumiya, S.; Nabarro, A. C.; de Jesus Sacramento, A., Curves in a spacelike hypersurface in the Minkowski space-time, 2017.
