Some critical point theorems and their applications to periodic solution for second order Hamiltonian systems Journal of Differential Equations Tang, C.L.; Wu, X.P. 2. Positive solutions of the p-Laplacian involving a superlinear nonlinearity with zeros Journal of Differential Equations, Volume 248, Issue 2, January 2010, Pages 309-327 Iturriaga, L.; Massa, E.; Sanchez, J.; Ubilla, P. DIFFERENTIA Cited by S us (1) 3. Global-stability problem for coupled systems of differential equations on networks B Journal of Differential Equations, Volume 248, Issue 1, January 2010, Pages 1-20 Li, M.Y.; Shuai, Z. 4. Positive solutions for some non-autonomous Schrodinger-Poisson systems Journal of Differential Equations, Volume 248, Issue 3, February 2010, Pages 521-543 Cerami, G.: Vaira, G. 5. On transonic shocks in a conic divergent nozzle with axi-symmetric exit pressures в Journal of Differential Equations, Volume 248, Issue 3, February 2010, Pages 423-469 Li, J.; Xin, Z.; Yin, H. 6. Hopf bifurcations in a reaction-diffusion population model with delay effect Journal of Differential Equations, Volume 247, Issue 4, August 2009, Pages 1156-1184 Su. Y.: Wei, J.: Shi, J. 7. On Hopf bifurcation in non-smooth planar systems B Journal of Differential Equations Han, M.; Zhang, W. 8. On the existence of some new positive interior spike solutions to a semilinear Neumann problem Journal of Differential Equations, Volume 248, Issue 3, February 2010, Pages 556-573 D\'Aprile, T.; Pistoia, A 9. L^2-estimates of solutions for damped wave equations with space-time dependent damping term Journal of Differential Equations, Volume 248, Issue 2, January 2010, Pages 403-422 Lin, J.; Nishihara, K.; Zhai, J. 10. Stability properties of solutions of linear second order differential equations with random coefficients Journal of Differential Equations, Volume 248, Issue 1, January 2010, Pages 21-49 Csorgo, S.; Hatvani, L. 11. Asymptotic regularity for some dissipative equations Journal of Differential Equations, Volume 248, Issue 2, January 2010, Pages 342-362 Sun, C 12. On periodic solutions of second-order differential equations with attractive-repulsive singularities Journal of Differential Equations, Volume 248, Issue 1, January 2010, Pages 111-126 Hakl, R.; Torres, P.J. 13. Weighted energy decay for 3D Klein-Gordon equation Journal of Differential Equations, Volume 248, Issue 3, February 2010, Pages 501-520 Komech, A.I.; Kopylova, E.A. 14. Convergence to steady states in a viscous Hamilton-Jacobi equation with degenerate diffusion Journal of Differential Equations, Volume 248, Issue 2, January 2010, Pages 209-228 Stinner, C. 15. Properties of positive harmonic functions on the half-space with a nonlinear boundary condition B Journal of Differential Equations, Volume 248, Issue 3, February 2010, Pages 617-637

	Abreu, E.; do O, J.M.; Medeiros, E.		
16.	A periodic solution of a differential equation with state-dependent delay Journal of Differential Equations, Volume 244, Issue 8, April 2008, Pages 1910-1945 Walther, H.O. Cited by Scopus (2)	8	
17.	Existence of solutions to nonlinear, subcritical higher order elliptic Dirichlet problems Journal of Differential Equations Reichel, W.; Weth, T.	B	
18.	On the critical dimension of a fourth order elliptic problem with negative exponent Journal of Differential Equations, Volume 248, Issue 3, February 2010, Pages 594-616 Moradifam, A.	B	
19.	Dynamical behavior of an epidemic model with a nonlinear incidence rate Journal of Differential Equations, Volume 188, Issue 1, February 2003, Pages 135-163 Ruan, S.; Wang, W. Cited by Scopus (59)	B	
20.	On the multiplicity of positive solutions for p-Laplace equations via Morse theory Journal of Differential Equations, Volume 247, Issue 11, December 2009, Pages 3011-3027 Cingolani, S.; Vannella, G.	8	
21.	Viability for differential equations driven by fractional Brownian motion Journal of Differential Equations, Volume 247, Issue 5, September 2009, Pages 1505-1528 Ciotir, I.; Rascanu, A.	B	
22.	Global existence and blow-up phenomena for an integrable two-component Camassa-Holm shallow water system Journal of Differential Equations Guan, C.; Yin, Z.	B	
23.	Asymptotic behavior of solutions to a quasilinear nonuniform parabolic system modelling chemotaxis Journal of Differential Equations Zhang, Y.; Zheng, S.	B	
24.	The strong maximum principle revisited • Review article   Journal of Differential Equations, Volume 196, Issue 1, January 2004, Pages 1-66   Pucci, P.; Serrin, J.      © Cited by Scopus (49)	8	
25.	Lyapunov functions for trichotomies with growth rates Journal of Differential Equations, Volume 248, Issue 1, January 2010, Pages 151-183 Barreira, L.; Valls, C.	8
